

Thank You

to those who make this evening possible!

These concerts would not be possible without the musicians who donate their performances, the churches who open their sanctuaries free of charge, and the generous local community members and businesses who donate the funds to allow the NYE committee to be able to produce brochures and posters and do the other necessary things to make the evening freely available to all. The 2025 donors are:

Giving Back to the Community Through Music

Volunteers began these concerts 34 years ago to provide live entertainment to welcome in the New Year. To-date these concerts have raised over **\$165,000** through the freewill offerings made by audience members. These donations support local charities selected by the individual churches.

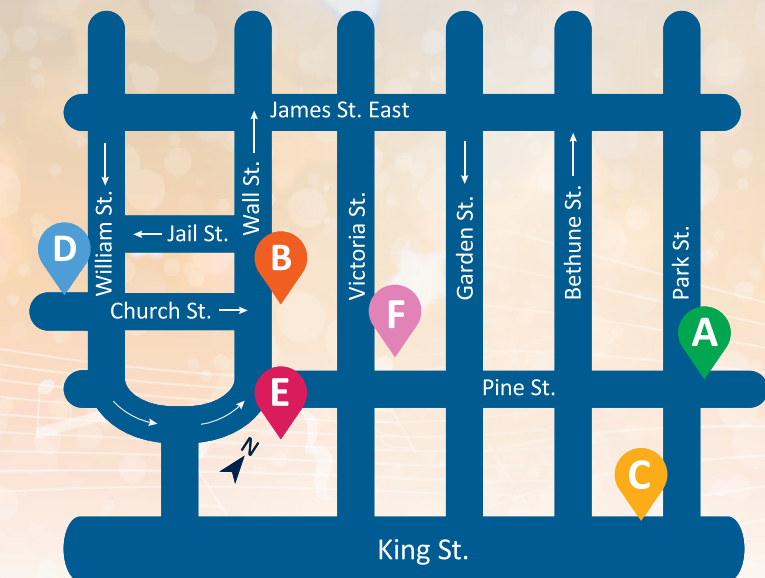

Thank you for your generous donations.

The New Year's Eve Concert Committee

The volunteer committee undertakes the necessary footwork, co-ordination and fund-raising to continue this annual tradition.
